in his paper reaching here.

We are indebted to the Hon. H. S. Sievens for valuable public doesments, not the least desirable of which is the proceedings of the Electoral so contrary to the fundamental law governing the electoral count.

The Territorial placers generally have spoken in commendation of Gen. Wilcox's desire to give secarity to the citizens from raiding Indians. Inasmuch as the General is now to the Territory we would suggest that a picket at Ash Springs would greatly relieve the apprehensions of wayfurers on the road from this place to of the Pinal Mountains, with high, to complete the North Starroad from work has been done on said claim for Silver City.

and for houses will be met. What is located.

newers of wood of water." That idea dissipated by seeing tham engaged in manual labor, adobe making, tending mesons, chopping wood, drawing and carrying water and otherwise engaged in earning an honest penny. Their price is a dollar a day and no trust after sun down. The squaws we always knew were industrious, and no one here who has seen them carrying hay on their heads from the mountains will dispute the fact. They supply the town, as also every mining camp with forago. Indian tamed is a good institution: but better dead.

A few days since we visited the Miami mill and found it bounding rich quartz of Globe district. It is situated five miles norsh of town in a beautiful valley in the numediate neighborhood e? sour of our richest faines. It is as complete as human ingenuity could make it, and admirably arranged for the purpose intended, and has a concerty for the reduction of ter tons at ore in each twen- mines. ty-four as and is at present under tes en varision of H.
